"My husband and I had a wonderful experience working with Blaine for our anniversary photos! We came across his website while searching for photographers... and are very thankful we did! He had great ideas throughout the photo shoot and was happy to work with our ideas as well. We could tell he genuinely enjoyed what he was doing, which in turn made it more enjoyable for us and we were able to relax and have fun.... I am sure we'll use Blaine Shillington Photography again in the future. Thank you Blaine!" - kairi

Session Details

I love doing photo sessions at an outdoor location. Once we settle on a location and a time, I plan out my angles and lighting using a sun location app. Then we will meet up on site and make beautiful photos together!

Tips for your session.

- Try to dress in a timeless fashion, and avoid large logos if possible. Natural fabrics and colors always work great!
- For engagement photos, I always try to do a closeup of the engagement ring, consider fresh nails beforehand if you would like.
- Don't stress. Even if this is your first time in front of a camera, I have lots of posing tricks and tips to make you look your best, even if it feels a bit uncomfortable at first.
 - if you have any questions please just text or call!

A close-up photograph of a bride's back as she is being prepared for her wedding. She is wearing a white lace wedding dress. Several hands are visible, adjusting the dress. One arm with a prominent tattoo is visible, reaching towards the bride's back. The lighting is warm and soft, creating a romantic atmosphere.

"Blaine photographed our engagement ... and our small wedding ceremony. I was a little nervous to get behind a camera, but that melted away because he is a joy to work with. Our photos look stunning by virtue of his eye, beautifully capturing our emotional connection." -chey
